For registration questions, please contact [Artin@isctglobal.org](mailto:Artin@isctglobal.org).

## ISCT 2025 NEW ORLEANS

SAVE THE DATE • MAY 7-10

“Driving Global Innovation Towards Patient Access” is the theme of the ISCT 2025 Annual Meeting, reflecting the critical role that ISCT 2025 will serve as a platform at the heart of translation. Join us as we bridge novel and promising cell and gene science to **approved and accessible** therapies

Our expert-curated program will showcase the latest CGT breakthroughs, including advancements in extracellular vesicles, iPSCs, CAR Ts, TILs, dendritic cells, MSCs, tissue engineering, and more. The Roundtable Program is a highly engaging forum for delegates to tackle pressing practical issues and collaborate on solutions across a broad range of topics, including regulatory standards and guidances, bioprocessing and manufacturing, the integration of AI and automation, and increasing patient access.

Don't miss your opportunity to be part of the future of CGT at ISCT 2025. Join 3,000+ global experts from academia, regulatory bodies, and industry to explore the innovations shaping the future of CGT, address critical challenges, and forge invaluable connections with the leaders of our sector.

### MEET THE 2025 CO-CHAIRS

Miguel Forte, MD, PhD  
ISCT President

“The ISCT Annual Meeting is where the brightest minds in CGT come together to drive the sector forward. Our program is carefully curated by ISCT key opinion leaders from around the world. Behind the scenes, it's the result of countless early mornings, late nights, and extensive collaboration—focused on tackling real challenges and driving meaningful progress in cell and gene therapy.

I'm delighted to introduce the six Co-Chairs who will guide the development of the ISCT 2025 New Orleans program.”
